This is the second and final reading of an ordinance vacating a 15,210 square foot portion of a Public Utility Easement lying in Lot 1, Block 1 and Lot 1, Block 3, Corrected Southgate Subdivision, in Section 31, Block 9, B.S.&F. Survey, Randall County, Texas.
(Vicinity: Bell Street and Arden Road)

Agenda Item Summary

Proposal

The applicant is proposing to vacate a portion of an existing Public Utility Easement, which was retained in 1985 as part of a vacation of a previously dedicated street.

The applicant is proposing to develop the site with a truck and auto convenience store and one of the proposed onsite improvements is a truck scale. The truck scale is proposed to be located within the portion of the Public Utility Easement within the site and due to structures not being allowed to encumber a public easement, must be vacated.

The vacation request has been reviewed by the customary City Departments and local utility companies with no objections raised with vacation of the easement. As with any vacation request, an applicant is required to either pay fair market value to acquire the area, dedicate an area of equal or greater value, pay only the higher cost of the fair market value or the relocation cost, or complete a combination of these requirements.

In this instance, the applicant has dedicated 1.26 acres for public right-of-way which far exceeds the fair market value of the area being requested for vacation (\$45,923 vs \$12,951). Additionally, costs to bring the just mentioned right-of-way up to standards was approximately \$55,000. Considering this, no fair market value payment is necessary in this instance.

Requested Action/Recommendation

Considering all the above the Planning and Zoning Commission recommends **approval** as presented.

Staff Recommendation

Airport staff recommends approval of both E36 liquid and NAAC pellets from Cryotech. These purchases are to ensure compliance with our FAA approved SICP.

Proprietary/Sole Source Purchase Justification

State of Texas law and City of Amarillo policy require competitive bidding for purchases unless they qualify as Proprietary or Sole Source purchases. A Proprietary or Sole Source purchase is a product or service that has a distinctive characteristic that is not shared by competing products or services. When the specification limits consideration to one manufacturer, one product or one service provider, a written Propriety Purchase/Sole Source Justification form must be retained in the procurement file. This form will assist Purchasing in relaying information necessary on the procurement of proprietary or sole source goods and services. All purchases are subject to the Texas Open Records Act and possible review by Internal, State and Federal auditors. Final approval from Purchasing is required before a purchase will be made.

1. Identify the operational features or functions that are unique or proprietary to the requested good(s) or service(s). For services, identify the special and/or unique qualifications of the individual/company providing the services.

Cryotech products are designed and approved by the FAA for runway anti-icing and de-icing operations during winter weather events.

2. For equipment, software, or systems, please explain why no other vendor or distributor can fulfill this request.

Cryotech products are proprietary materials designed for use in aviation for winter operations.

3. Briefly explain the need for the unique features or characteristics outlined in the order. For services, explain the reason any unique qualifications are necessary in the performance of the project requirements.

These materials are part of the Airports Snow and Ice Control Plan approved by the FAA.

4. Explain the reasons competitive products or services are not satisfactory. Identify all other sources whose products/services have been considered for this project and explain why they were unsatisfactory. Also, attaché any quotes/proposals received from other sources, if applicable.

Cryotech products are proprietary and designed for use in aviation.

5. For products: give brand and model number of existing equipment if product will be used with existing equipment. List the purchase order number, if applicable.

Cryotech E36 – liquid runway anti-icer
Cryotech NAAC – solid runway de-icer

6. For services: if the service is related to an existing contract for service, list the existing purchase order number.
