The **RANDALL COUNTY SHERIFF'S OFFICE (RCSO)** serves as the representative and administrator for all **RANDALL** agencies and constituents within the boundary of Randall County.

POTTER COUNTY (POTTER) is represented through a Communications System Agreement – Master Site User between **AMARILLO** and **POTTER**. The **POTTER COUNTY SHERIFF'S OFFICE (PCSO)** serves as the representative and administrator for all **POTTER** agencies and constituents inside of Potter County.

Any agency, contractor or subscriber providing services in support of the **AMARILLO** or **RANDALL** or their subscribers in the execution of their duties shall be expected to adhere to these policies.

This **MANAGEMENT AND OPERATIONS AGREEMENT** (the "**Agreement**") is made and entered into by and between the **City of Amarillo ("City" or "AMARILLO")**, acting herein by and through its duly authorized City Manager, and **Randall County ("RANDALL")**, acting herein by and through its duly elected County Judge, referred to herein as "**Party**" or "**Parties**." RECITALS

WHEREAS, this Agreement is made under the authority of the Interlocal Cooperation Act, Texas Government Code Chapter 791, or its successor; and

WHEREAS, each governing body, in performing governmental functions or in paying for the performance of governmental functions hereunder, shall make that performance or those payments from current revenues legally available to that Party; and

WHEREAS, each governing body finds that the subject of this Agreement is necessary for the benefit of the public and each has the legal authority to perform and to provide the governmental function or service which is the subject matter of this Agreement; and

WHEREAS, each governing body finds that the performance of this Agreement is in the common interest of both Parties and that the division of costs fairly compensates the performing Party for the services or functions under this Agreement; and

WHEREAS, **AMARILLO** and **RANDALL** each own one half of the “core” infrastructure as described by the system manufacturer and developer, Motorola Solutions, Inc. (**MOTOROLA**), and each equally share in the operation, maintenance and administration of the regional trunked voice radio system for the purpose of providing public safety voice radio communications and both are the equal licensees of the trunked voice radio systems with all privileges and responsibilities thereof, including system keys and administration, to create geographically separated Dynamic Site Resilient (DSR) system; and

WHEREAS, each governing body has determined that a unified and integrated radio communications system would improve the ability of public safety and public service agencies to communicate and cooperate with each other,

NOW THEREFORE, **AMARILLO** and **RANDALL** agree as follows:

1. SYSTEM DEFINITION

AMARILLO and **RANDALL** each hereby understand that the system is made up of a complex network of servers, computer workstations, high-speed LAN/WAN devices, databases, and software applications creating two identical Master Sites, or cores, individually acquired, geographically separated, and redundantly connected. Together these two cores create a Dynamic System Resilience (DSR) for high availability and function as a Single Zone Core (CORE) that is equally owned and operated by both Parties. At the time of this Agreement, Motorola refers to this architecture as an M1 DSR Core. Both **AMARILLO** and **RANDALL** intend to offer the system as a regional resource to subscriber agencies outside of Potter and Randall Counties.

The CORE system, at the time of this agreement, supports 24 sites as defined by Motorola Solutions, Inc. Capacities may be increased by future software releases. Neither Party should consume or commit more than fifty percent (50%) of the Sites available without the approval of the other OWNER or purchasing additional licensing and resources necessary to realize the increased capacity.

The **RANDALL** Master Site shall be located at the Randall County Sheriff's Office, 9100 S. Georgia St., Amarillo, Texas, and the **AMARILLO** Master Site shall be located at the Simms Municipal Building at 808 S. Buchanan St., Amarillo, Texas.

Each Party will set priorities for their respective subscribers and talk groups through fleet mapping to make use of their primary sites before roaming onto the other Party's sites.

The two master sites shall be connected using two commercial microwave backhaul technologies. One is currently operated by **RANDALL** today at the Santa Fe Building located in Downtown Amarillo where a network interconnect has been established between **AMARILLO**, **RANDALL** and **POTTER**.

The second shall be constructed between the Hunsley Tower geo-redundant prime site for **RANDALL** and the **AMARILLO** tower site at John Stiff Park. The cost of maintenance of this link shall be split equally between **RANDALL** and **AMARILLO** with both Parties having management and visibility into the link. Administration policies should follow those mentioned herein. Should this agreement be terminated, each party shall maintain ownership of the equipment at their respect site and any licensing associated with operating that hardware, with exception of the FCC licenses.

Both **AMARILLO** and **RANDALL** will have various radio frequency (RF) sites associated with the CORE. Each plans to initially implement a simulcast site with multiple sub sites and Astro 25 Site Repeater (ASR) sites associated with their service areas.

One license of ISSI8000 for the entire **SYSTEM** will be installed across the DSR and be utilized for outside agencies wishing to connect sites to the system, but may not be able to maintain the same SUA schedule mentioned herein or are using a manufacturer other than Motorola Solutions. It may be used to connect the APRRRS the State of Texas System of System in the future. **AMARILLO** and **RANDALL** shall each share half of the cost of related maintenance costs. Should this agreement be terminated all licensing shall be transferred to the **RANDALL** master site.

Each console site defined in the system consumes another site toward the overall 24-site count.

2. AUTHORIZED REPRESENTATIVES

Each **PARTY** will have authorized representatives engaged in the daily administration or authorization for administration of the system. If authorized representatives are changed, added or reassigned, notification shall be made in writing via email, and shall be copied to all other authorized representatives.

The following are authorized representatives for **AMARILLO**:

Amarillo Area Director of Emergency Management

City of Amarillo Radio Communications Coordinator

The following are authorized representatives for **POTTER**:

Potter County Sheriff

PCSO Training & Personnel Sergeant

The following are authorized representatives for **RANDALL**:

Randall County Sheriff

RCSO Director of Technical Services

3. SYSTEM ADMINISTRATION

Given that the system is a DSR configuration, despite the geographical separation of the Master Sites, the system operates as a unified system or zone. As such, a single Master System Key is required to complete programming, provisioning, maintenance and other systemwide administrative tasks. The system provided by Motorola Solutions includes an audit logging and reporting system.

In an effort to limit the potential negative effects of changes at the system level, all **PARTIES** agree to limit the number of users with access at the system level to not more than three users for each **PARTY**. In addition, Security Groups in Active Directory, Provisioning Manager and other such applications will be used by the **PARTIES** to properly implement system security.

Each **PARTY** will have a second user account for each system level user for daily, regular operations. This second account should be used to effectively create administrative partitions to the system so users may manage their constituent agencies or subscribers without logging in with system level permissions on a regular basis. This will limit the potential for unintended system wide misconfiguration.

Neither **PARTY** shall make programming changes to the system or subscribers outside of their constituent agencies without written permission from an authorized representative herein of the other **PARTY**.

4. ROAMING

Both **PARTIES** agree to allow public safety subscribers (i.e. law enforcement, fire, EMS) within Potter and Randall counties to roam between the two **PARTIES'** sites. Public Safety roaming will be managed in the fleet map process that identifies talk-groups, specific subscriber devices, and priorities that will be allowed to roam while not creating interference of loading issues at the sites.

Both **PARTIES** agree to limit non-public safety subscribers (i.e. road and bridge, public works, parks and recreation, school districts) from roaming outside of their primary site. Any exception should be managed in the fleet map process that should allow talk-groups, specific subscriber devices, and priorities to access for emergency or public safety operations.

5. RANDALL CONSTITUENT AGENCIES

RANDALL has partnered with other public safety agencies to provide resources that inure to the benefit of the system design and resilience. Other agencies are constituent agencies in the county proper and/or whose radio systems are already maintained by **RANDALL**, and will be allowed to subscribe to the system without a subscriber fee from either Party to this agreement.

RANDALL shall maintain Interlocal Agreements with each of the respective agencies and ensure that their inclusion in the **APRRRS** does not negatively impact the operation or reliability of the system. **RANDALL** shall be responsible for verifying that all subscriber devices for those agencies are properly licensed to operate within the system.

Any subscriber entity or agency **RANDALL** brings into the system, outside of governmental public safety agencies described herein, should be provisioned through fleet mapping and programming to only use the **RANDALL** Simulcast and ASR Sites, unless otherwise agreed to in writing by both **PARTIES**, communicated via email and copied to the Authorized Representatives herein.

The list of **RANDALL** agencies covered by this agreement are identified in ADDENDUM A, attached hereto. This ADDENDUM may be updated at any time in writing by **RANDALL** and emailed to all of the Authorized Representatives of herein.

6. AMARILLO CONSTITUENT AGENCIES

AMARILLO has partnered with **POTTER** and other public safety agencies to provide resources that inure to the benefit of the system design and resilience. Other agencies are constituent agencies in **AMARILLO** and/or whose radio systems are already maintained by **AMARILLO**, as such will be allowed to subscribe to the system without a subscriber fee from either **PARTY** to this agreement.

AMARILLO has offered hosting services to some agencies or entities that pay a subscriber fee to **AMARILLO**. These fees are negotiated between **AMARILLO** and each entity and are not subject to approval by **RANDALL**.

AMARILLO shall maintain an Interlocal Agreement or Communications System Agreement with each of their subscriber entities and verify their inclusion does not negatively impact the operation or reliability of the **APRRRS**. **AMARILLO** shall be responsible for verifying that all subscriber devices for those entities are properly licensed to work with the system.

Any subscriber entity or agency **AMARILLO** brings into the system, outside of governmental public safety agencies described herein, should be provisioned through fleet mapping and programming to only use the **AMARILLO** Simulcast Sites, unless otherwise agreed to in writing by both **PARTIES**, communicated via email and copied to the Authorized Representatives herein.

The list of **AMARILLO** agencies covered by this agreement are identified in ADDENDUM B, attached hereto, and may be updated at any time in writing by **AMARILLO** and signed by one of the Authorized Representatives of this agreement and emailed to all of the Authorized Representatives herein.

7. INTEROPERABILITY COMMITTEE

Both **PARTIES** agree to participate in an Amarillo/Potter/Randall Interoperable Communications Committee tasked to establish operational policies and procedures related to the use of the **APRRRS**. The Amarillo/Potter/Randall Interoperable Communications Committee shall meet semiannually or when deemed necessary by the committee representatives.

The Amarillo/Potter/Randall Interoperable Communications Committee shall include one representative from each of the following entities:

- Emergency Management: Amarillo Area Office of Emergency Management
- Emergency Medical Services: Amarillo Medical Services, BSA Ambulance Service, and Lifestar
- Fire Services: Amarillo Fire Department, Canyon Fire Department, Potter County Fire Rescue, Randall County Fire Department, Texas Forest Service
- Law Enforcement: Amarillo Police Department, Canyon Police Department, Potter County Sheriff's Office, Randall County Sheriff's Office, one representative from a local College/University Police Department, and Texas Department of Public Safety
- Non-Public Safety Representatives: One representative from the City of Amarillo, Potter County, and Randall County non-public safety users

The Committee's recommendations shall not be binding on any agency hereto, but serve as recommendations. Both **PARTIES** agree to maintain coordinated Interoperable Communications Plans and include the plan's interoperable talk groups in the programming of their subscriber radios and consoles.

8. UPDATES

Both **PARTIES** agree and understand that system updates must be completed simultaneously to the core infrastructure to maintain system compatibility. Each **PARTY** agrees to maintain a System Upgrade Agreement II (SUA II) with Motorola Solutions and coordinate upgrade schedules every two years. Dates within that two-year period shall be mutually agreed upon in writing, communicated via email to all Authorized Representatives herein.

9. TERM

This Agreement shall begin on the last day executed by all authorized **PARTIES** and shall continue in full force and effect unless terminated in accordance with the provisions set forth

herein. Either Party may terminate this Agreement by providing written notice to the other Party of its intent to terminate not less than 90 days before the intended date of termination.

10. COMPENSATION

Neither **PARTY** shall pay a fee to the other, given the significant investment both have made in the **SYSTEM** and the resiliency it provides to both entities and their subscribers. Further, neither **PARTY** should seek to receive compensation for subscribers whose primary operating location is outside the **PARTY'S** jurisdiction (i.e. **AMARILLO** would not seek to collect fees from the Canyon Police Department for core access, and **RANDALL** would not seek fees from Amarillo College for core access).

Any agency, subscriber or master site user outside of Potter or Randall counties proper, brought into the system by either **PARTY** shall be subject to a mutually agreed upon fee structure. Any compensation or fee generated from those agencies, subscribers or users shall be equally split between the **RANDALL** and **AMARILLO** given the investment in the system infrastructure by both **PARTIES** and its ability to provide reliability and resilience to any user of the **SYSTEM**.

11. LIABILITY

Nothing in the performance of this Agreement shall impose liability on a Party for claims by a third party.

12. NON-APPROPRIATION OF FUNDS

Both Parties will use best efforts to appropriate sufficient funds to support obligations under this Agreement. However, in the event that sufficient funds are not appropriated by either Party's governing body, and as a result that Party is unable to fulfill its obligations under this Agreement, that Party (i) shall promptly notify the other Party in writing and (ii) may terminate this Agreement, effective as of the last day for which sufficient funds have been appropriated.

13. RIGHT TO AUDIT

Both Parties agree that each Party shall, until the expiration of three (3) years after termination of this Agreement, have access to and the right to examine at reasonable times any directly pertinent books, documents, papers, records, and communications involving transactions relating to this Agreement at no additional cost to either Party. Both Parties agree that either Party shall have access during normal working hours to all necessary facilities and shall be provided adequate and appropriate work space in order to conduct audits in compliance with the provisions of this section.

14. NO ASSIGNMENT

This Agreement is not assignable.

15. NO WAIVER

The failure of either Party to insist upon the performance of any provision or condition of this Agreement or to exercise any right granted herein shall not constitute a waiver of that Party's right to insist upon appropriate performance or to assert any such right on any future occasion.

16. AMENDMENTS

No amendment to this Agreement shall be binding upon either Party hereto unless such amendment is set forth in writing and signed by both Parties.

17. SEVERABILITY

If any provision of this Agreement is held by a court of competent jurisdiction to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired.

18. CONFIDENTIAL INFORMATION

To the extent permitted by law, each Party – for itself and its officers, agents and employees – agrees that it shall treat all information provided as confidential and shall not disclose any such information to a third Party without the prior written approval. Both Parties shall store and maintain information in a secure manner and shall not allow unauthorized users to access, modify, delete or otherwise corrupt information in any way. Each Party shall notify the other immediately if the security or integrity of any information has been compromised or is believed to have been compromised.

19. FORCE MAJEURE

The Parties shall exercise their best efforts to meet their respective duties and obligations hereunder but shall not be held liable for any delay or omission of performance due to force majeure or other causes beyond their reasonable control, including, but not limited to, compliance with any state or federal law or regulation, acts of God, fires, strikes, lockouts, national disasters, wars, riots, material or labor restrictions, transportation problems or existing contractual obligations directly related to the subject matter of this Agreement.

20. GOVERNING LAW / VENUE

This Agreement shall be construed in accordance with the laws of the State of Texas. Venue for any action brought on the basis of this Agreement shall lie exclusively in state courts located in Randall County, Texas or the United States District Court for the Northern District of Texas – Amarillo Division. In any such action, each Party shall pay its own attorneys' fees, court costs and other expenses incurred as a result of the action.

21. SIGNATURE AUTHORITY

The person signing this agreement hereby warrants that he/she has the legal authority to execute this agreement on behalf of the respective Party, and that such binding authority has been granted by proper order, resolution, ordinance or other authorization of the entity. The other Party is fully entitled to rely on this warranty and representation in entering into this Agreement.

22. ENTIRETY OF AGREEMENT

This written instrument, including all Exhibits attached hereto, contains the entire understanding and agreement between **AMARILLO** and **RANDALL** as to the matters contained herein. Any prior or contemporaneous oral or written agreement is hereby declared null and void to the extent in conflict with this Agreement.

The Scope of Work is more particularly set forth in the letter dated November 29, 2018 from ENGINEER to OWNER attached to this Agreement and by this reference made a part of the Agreement. ENGINEER accepts this engagement on the terms and conditions hereinafter set forth. In the event of any conflict between ENGINEER's letter dated November 29, 2018 and this Agreement, the terms of this Agreement will govern.

I.

XXVI.

In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision thereof, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Agenda Item Summary

On December 13, 2011, by Resolution No. 12-13-11-1, the City of Amarillo City Council authorized the creation of the Redstone Public Improvement District (PID). Development within the PID never fully occurred as intended and other than a multi-family complex, the entire section has been subsequently sold. The Redstone PID was based on a master planned community and associated PID budget estimates, assessment method, etc. were based on the master plan. The new property owner has no plans to follow through with the original master plan. Therefore, the existing PID is being requested to be dissolved. All required notices of the public hearing have been mailed and published as required by law.

Requested Action

As required by the Texas Local Government Code, Chapter 372, attached is a petition, submitted by Attebury Elevators, LLC, Happy Again, LP, and Rockrose Development, LLC, requesting the City Council dissolve the Redstone PID.

Funding Summary

All costs associated with the dissolution request are being funded by the entities requesting the dissolution of the Redstone PID.

Community Engagement Summary

As alluded to above, notices of the public hearing were published and mailed in accordance with State law.

City Manager Recommendation

Development Services and Legal staff have reviewed the petition and believe that it satisfies State requirements as specified in the Texas Local Government Code, Chapter 372. Development Services staff recommends that this resolution be approved.
