When required, the Subgrantee shall furnish the Department with satisfactory proof of compliance.

ARTICLE 2. STANDARD ASSURANCES

The Subgrantee assures and certifies that it will comply with the regulations, policies, guidelines, and requirements, including 2 CFR, Part 200; and the Department's Traffic Safety Program Manual, as they relate to the application, acceptance, and use of federal or state funds for this project. Also, the Subgrantee assures and certifies that:

- A. It possesses legal authority to apply for the grant; and that a resolution, motion, or similar action has been duly adopted or passed as an official act of the applicant's governing body, authorizing the filing of the application, including all understandings and assurances contained in the application, and directing and authorizing the person identified as the official representative of the applicant to act in connection with the application and to provide any additional information that may be required.

ARTICLE 3. COMPENSATION

- A. The method of payment for this agreement will be based on actual costs incurred up to and not to exceed the limits specified in the Project Budget. The amount included in a Project Budget category will be deemed to be an estimate only and a higher amount can be reimbursed, subject to the conditions specified in paragraph B of this Article. If the Project Budget specifies that costs are based on a specific rate, per-unit cost, or other method of payment, reimbursement will be based on the specified method.
- B. All payments will be made in accordance with the Project Budget.
1. The Subgrantee's expenditures may overrun a budget category (I, II, or III) in the approved Project Budget without a grant (budget) amendment, as long as the overrun does not exceed a total of five (5) percent of the maximum amount eligible for reimbursement (TxDOT) in the attached Project Budget for the current fiscal year. This overrun must be off-set by an equivalent underrun elsewhere in the Project Budget.
 2. If the overrun is five (5) percent or less, the Subgrantee must provide written notification to the Department, through the TxDOT Electronic Grants Management System (eGrants), prior to the Request for Reimbursement being approved. The notification must indicate the amount, the percent over, and the specific reason(s) for the overrun.
 3. Any overrun of more than five (5) percent of the amount eligible for reimbursement (TxDOT) in the attached Project Budget requires an amendment of this Grant Agreement.
 4. The maximum amount eligible for reimbursement shall not be increased above the Grand Total TxDOT Amount in the approved Project Budget, unless this Grant Agreement is amended, as described in Article 5 of this agreement.
 5. For Selective Traffic Enforcement Program (STEP) grants only: In the Project Budget, Subgrantees are not allowed to use underrun funds from the TxDOT amount of (100) Salaries, Subcategories A, "Enforcement," or B, "PI&E Activities," to exceed the TxDOT amount listed in Subcategory C, "Other." Also, Subgrantees are not allowed to use underrun funds from the TxDOT amount of (100) Salaries, Subcategories A, "Enforcement," or C, "Other," to exceed the TxDOT amount listed in Subcategory B, "PI&E Activities." The TxDOT amount for Subcategory B, "PI&E Activities," or C, "Other," can only be exceeded within the five (5) percent flexibility, with underrun funds from Budget Categories II or III.
- C. To be eligible for reimbursement under this agreement, a cost must be incurred in accordance with the Project Budget, within the time frame specified in the Grant Period of this Grant Agreement, attributable to work covered by this agreement, and which has been completed in a manner satisfactory and acceptable to the Department.
- D. Federal or TxDOT funds cannot supplant (replace) funds from any other sources. The term "supplanting," refers to the use of federal or TxDOT funds to support personnel or an activity already supported by local or state funds.

- E. Payment of costs incurred under this agreement is further governed by the cost principles outlined in 2 CFR Part 200.
- F. The Subgrantee agrees to submit monthly Requests for Reimbursement, as designated in this Grant Agreement, within thirty (30) days after the end of the billing period. The Request for Reimbursement and appropriate supporting documentation must be submitted through eGrants.
- G. The Subgrantee agrees to submit the final Request for Reimbursement under this agreement within forty-five (45) days of the end of the grant period.
- H. Payments are contingent upon the availability of appropriated funds.
- I. Project agreements supported with federal or TxDOT funds are limited to the length of this Grant Period specified in this Grant Agreement. If the Department determines that the project has demonstrated merit or has potential long-range benefits, the Subgrantee may apply for funding assistance beyond the initial agreement period.

Preference for funding will be given to projects based on (1) proposed cost sharing and (2) demonstrated performance history.

ARTICLE 4. LIMITATION OF LIABILITY

Payment of costs incurred under this agreement is contingent upon the availability of funds. If at any time during this Grant Period, the Department determines that there is insufficient funding to continue the project, the Department shall notify the Subgrantee, giving notice of intent to terminate this agreement, as specified in Article 11 of this agreement. If at the end of a federal fiscal year, the Department determines that there is sufficient funding and performance to continue the project, the Department may notify the Subgrantee to continue this agreement.

ARTICLE 5. AMENDMENTS

This agreement may be amended prior to its expiration by mutual written consent of both parties, utilizing the Grant Agreement Amendment in eGrants. Any amendment must be executed by the parties within the Grant Period, as specified in this Grant Agreement.

ARTICLE 6. ADDITIONAL WORK AND CHANGES IN WORK

- A. If the Subgrantee is of the opinion that any assigned work is beyond the scope of this agreement and constitutes additional work, the Subgrantee shall promptly notify the Department in writing through eGrants. If the Department finds that such work does constitute additional work, the Department shall advise the Subgrantee and a written amendment to this agreement will be executed according to Article 5, Amendments, to provide compensation for doing this work on the same basis as the original work. If performance of the additional work will cause the maximum amount payable to be exceeded, the work will not be performed before a written grant amendment is executed.
- B. If the Subgrantee has submitted work in accordance with the terms of this agreement but the Department requests changes to the completed work or parts of the work which involve changes to the original scope of services or character of work under this agreement, the Subgrantee shall make those revisions as requested and directed by the Department. This

will be considered as additional work and will be paid for as specified in this Article.

- C. If the Subgrantee submits work that does not comply with the terms of this agreement, the Department shall instruct the Subgrantee to make any revisions that are necessary to bring the work into compliance with this agreement. No additional compensation shall be paid for this work.
- D. The Subgrantee shall make revisions to the work authorized in this agreement that are necessary to correct errors or omissions, when required to do so by the Department. No additional compensation shall be paid for this work.
- E. The Department shall not be responsible for actions by the Subgrantee or any costs incurred by the Subgrantee relating to additional work not directly associated with or prior to the execution of an amendment.

ARTICLE 7. REPORTING AND MONITORING

- A. Not later than thirty (30) days after the end of each reporting period, the Subgrantee shall submit a performance report through eGrants. Reporting periods vary by project duration and are defined as follows:
 - 1. For short term projects, the reporting period is the duration of the project. Subgrantee shall submit a performance report within 30 days of project completion.
 - 2. For longer projects, the reporting period is monthly. Subgrantee shall submit a performance report within 30 days of the completion of each project month and within 30 days of project completion.
 - 3. For Selective Traffic Enforcement Program (STEP) Wave projects, the reporting period is each billing cycle. Subgrantee shall submit a performance report within 30 days of the completion of each billing cycle.
- B. The performance report will include, as a minimum: (1) a comparison of actual accomplishments to the objectives established for the period, (2) reasons why established objectives and performance measures were not met, if appropriate, and (3) other pertinent information, including, when appropriate, an analysis and explanation of cost underruns, overruns, or high unit costs.
- C. The Subgrantee shall promptly advise the Department in writing, through eGrants, of events that will have a significant impact upon this agreement, including:
 - 1. Problems, delays, or adverse conditions, including a change of project director or other changes in Subgrantee personnel, that will materially affect the ability to attain objectives and performance measures, prevent the meeting of time schedules and objectives, or preclude the attainment of project objectives or performance measures by the established time periods. This disclosure shall be accompanied by a statement of the action taken or contemplated and any Department or federal assistance needed to resolve the situation.
 - 2. Favorable developments or events that enable meeting time schedules and objectives sooner than anticipated or achieving greater performance measure output than originally projected.

- D. The Subgrantee shall submit the Final Performance Report through eGrants within thirty (30) days after completion of the grant.

ARTICLE 8. RECORDS

The Subgrantee agrees to maintain all reports, documents, papers, accounting records, books, and other evidence pertaining to costs incurred and work performed under this agreement (called the "Records"), and shall make the Records available at its office for the time period authorized within the Grant Period, as specified in this Grant Agreement. The Subgrantee further agrees to retain the Records for four (4) years from the date of final payment under this agreement, until completion of all audits, or until pending litigation has been completely and fully resolved, whichever occurs last.

Duly authorized representatives of the Department, the USDOT, the Office of the Inspector General, Texas State Auditor, and the Comptroller General shall have access to the Records. This right of access is not limited to the four (4) year period but shall last as long as the Records are retained.

ARTICLE 9. INDEMNIFICATION

- A. To the extent permitted by law, the Subgrantee, if other than a government entity, shall indemnify, hold, and save harmless the Department and its officers and employees from all claims and liability due to the acts or omissions of the Subgrantee, its agents, or employees. The Subgrantee also agrees, to the extent permitted by law, to indemnify, hold, and save harmless the Department from any and all expenses, including but not limited to attorney fees, all court costs and awards for damages incurred by the Department in litigation or otherwise resisting claims or liabilities as a result of any activities of the Subgrantee, its agents, or employees.
- B. To the extent permitted by law, the Subgrantee, if other than a government entity, agrees to protect, indemnify, and save harmless the Department from and against all claims, demands, and causes of action of every kind and character brought by any employee of the Subgrantee against the Department due to personal injuries to or death of any employee resulting from any alleged negligent act, by either commission or omission on the part of the Subgrantee.
- C. If the Subgrantee is a government entity, both parties to this agreement agree that no party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds, as well as the acts and deeds of its contractors, employees, representatives, and agents.

ARTICLE 10. DISPUTES AND REMEDIES

This agreement supersedes any prior oral or written agreements. If a conflict arises between this agreement and the Traffic Safety Program Manual, this agreement shall govern. The Subgrantee shall be responsible for the settlement of all contractual and administrative issues arising out of procurement made by the Subgrantee in support of work under this agreement. Disputes concerning performance or payment shall be submitted to the Department for settlement, with the Executive Director or his or her designee acting as final referee.

ARTICLE 11. TERMINATION

ARTICLE 11. TERMINATION

- A. This agreement shall remain in effect until the Subgrantee has satisfactorily completed all services and obligations described in this agreement and these have been accepted by the Department, unless:
1. This agreement is terminated in writing with the mutual consent of both parties; or
 2. There is a written thirty (30) day notice by either party, or
 3. The Department determines that the performance of the project is not in the best interest of the Department and informs the Subgrantee that the project is terminated immediately.
- B. The Department shall compensate the Subgrantee for only those eligible expenses incurred during the Grant Period specified in this Grant Agreement that are directly attributable to the completed portion of the work covered by this agreement, provided that the work has been completed in a manner satisfactory and acceptable to the Department. The Subgrantee shall not incur nor be reimbursed for any new obligations after the effective date of termination.

ARTICLE 12. INSPECTION OF WORK

- A. The Department and, when federal funds are involved, the USDOT, or any of their authorized representatives, have the right at all reasonable times to inspect or otherwise evaluate the work performed or being performed under this agreement and the premises in which it is being performed.
- B. If any inspection or evaluation is made on the premises of the Subgrantee or its subcontractor, the Subgrantee shall provide and require its subcontractor to provide all reasonable facilities and assistance for the safety and convenience of the inspectors in the performance of their duties. All inspections and evaluations shall be performed in a manner that will not unduly delay the work.

ARTICLE 13. AUDIT

The state auditor may conduct an audit or investigation of any entity receiving funds from the state directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a subcontract under this agreement acts as acceptance of the authority of the State Auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

ARTICLE 14. SUBCONTRACTS

A subcontract in excess of \$25,000 may not be executed by the Subgrantee without prior written concurrence by the Department. Subcontracts in excess of \$25,000 shall contain all applicable terms and conditions of this agreement. No subcontract will relieve the Subgrantee of its responsibility under this agreement.

ARTICLE 15. COPIES

ARTICLE 15. GRATUITIES

- A. Texas Transportation Commission policy mandates that employees of the Department shall not accept any benefit, gift, or favor from any person doing business with or who, reasonably speaking, may do business with the Department under this agreement. The only exceptions allowed are ordinary business lunches and items that have received the advanced written approval of the Department's Executive Director.
- B. Any person doing business with or who reasonably speaking may do business with the Department under this agreement may not make any offer of benefits, gifts, or favors to Department employees, except as mentioned here above. Failure on the part of the Subgrantee to adhere to this policy may result in termination of this agreement.

ARTICLE 16. NONCOLLUSION

The Subgrantee warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Subgrantee, to solicit or secure this agreement, and that it has not paid or agreed to pay any company or person, other than a bona fide employee, any fee, commission, percentage, brokerage fee, gift, or any other consideration contingent upon or resulting from the award or making of this agreement. If the Subgrantee breaches or violates this warranty, the Department shall have the right to annul this agreement without liability or, in its discretion, to deduct from the agreement price or consideration, or otherwise recover the full amount of such fee, commission, brokerage fee, contingent fee, or gift.

ARTICLE 17. CONFLICT OF INTEREST

The Subgrantee represents that it or its employees have no conflict of interest that would in any way interfere with its or its employees' performance or which in any way conflicts with the interests of the Department. The Subgrantee shall exercise reasonable care and diligence to prevent any actions or conditions that could result in a conflict with the Department's interests.

ARTICLE 18. SUBGRANTEE'S RESOURCES

- B. All employees of the Subgrantee shall have the knowledge and experience that will enable them to perform the duties assigned to them. Any employee of the Subgrantee who, in the opinion of the Department, is incompetent or whose conduct becomes detrimental to the work, shall immediately be removed from association with the project.
- C. Unless otherwise specified, the Subgrantee shall furnish all equipment, materials, supplies, and other resources required to perform the work.

ARTICLE 19. PROCUREMENT AND PROPERTY MANAGEMENT

The Subgrantee shall establish and administer a system to procure, control, protect, preserve, use, maintain, and dispose of any property furnished to it by the Department or purchased pursuant to this agreement in accordance with its own procurement and property management procedures, provided that the procedures are not in conflict with the Department's

procedures, provided that the procedures are not in conflict with (1) the Department's procurement and property management standards and (2) the federal procurement and property management standards provided by 2 CFR §§ 200.310-.316, 200.318-.324.

City Manager Recommendation

Staff recommends Council provide input and authorize the City Manager and the Mayor to represent Council positions as appropriate related to pending bills of significance.

- S.B. 2 (Bettencourt) – this is the revenue cap bill that lowers the rollback rate from 8 to 5 percent and requires an automatic election. The companion bill is H.B. 15 (Bonnen) in the House. One or both will be heard in the House Committee on Ways and Means.
- S.B. 88 (Hall) – this bill bans red light cameras. It will be heard in the House Committee on Transportation.
- S.B. 488 (Bettencourt) – this bill gives the Secretary of State authority to review and approve city ballot propositions.
- S.B. 737 (Hancock) – this bill would impose burdensome requirements any time a city imposes any new fee or fee increase, including establishing an email notification system and a required hearing 30 to 60 days before the fee may be adopted.
- S.B. 1004 (Hancock) – this bill allows cell phone companies almost unlimited access to structures in city rights-of-ways to install small cell antennas, and denies cities a reasonable rental fee for such on city property.
- S.B. 715 (Campbell) – this bill hasn't actually passed the Senate yet, but it almost certainly will next week. It would effectively end city annexations by requiring a vote only of the people being annexed, instead of a vote of all affected citizens. It will be heard in the House Committee on Land and Resource Management, which has several similar bills pending right now.
- HB 100 (Paddie) Transportation Network Companies: would preempt city regulation of transportation network companies (e.g., Uber and Lyft).
- HB 1852 (Lucio) and SB 1248 (Buckingham) Manufactured Housing: would limit a city's ability to regulate manufactured home parks.
- HB3947 would remove cities abilities to regulate payday loan establishments.

Not every city official cares equally about each issue. So pick one or two that matter most to your city and take action now!

- **Revenue Caps:** continue to contact members of the House Ways and Means Committee and urge them to oppose S.B. 2 (Bettencourt) and H.B. 15 (Bonnen). (It is likely that S.B. 2 will be heard in the Ways and Means Committee on Wednesday, April 26.) Here are the talking points and here are the committee members:

 - Abel Herrero
 - Cecil Bell
 - Ernest Bailes

DON'T FORGET: Mandatory Local Debt Reporting

House Bill 1378, passed during the 2015 legislative session, requires every city to annually report various figures related to the city's amount of debt. A city can satisfy the reporting requirement in one of two ways: (1) compile the requisite debt information in a self-created report that is posted to the city's website; or (2) complete the state comptroller's online debt reporting form and either: (a) upload it to the comptroller's website; or (b) post to the city's website.

The comptroller's office recently updated its H.B. 1378 webpage to include a "Local Entity Debt Lookup" feature. As of this writing, 219 Texas cities have posted their debt reports on the comptroller's website.

The local debt information required to be in the annual report, whether created by the city or by using the comptroller's form, is as follows:

1. The amount of all authorized debt obligations;
2. The principal of all outstanding debt obligations;
3. The principal of each outstanding debt obligation;
4. The combined principal and interest required to pay all outstanding debt obligations on time and in full;
5. The combined principal and interest required to pay each outstanding debt obligation on time and in full;
6. The amounts required by Nos. 1-5 limited to authorized and outstanding debt obligations secured by property taxes, expressed as a total amount and per capita amount;
7. The following for each debt obligation: (a) the issued and unissued amount; (b) the spent and unspent amount; (c) the maturity date; and (d) the stated purpose for which the debt obligation was authorized;
8. The current credit rating given by any nationally recognized credit rating organization to debt obligations of the political subdivision; and
9. Any other information that the political subdivision considers relevant or necessary to explain the values.

The comptroller's office has posted a draft version of its administrative rules governing the reporting process. The draft indicates that deadlines for reporting will be: (1) within 210 days of the end of the city's fiscal year in 2016; and (2) within 180 days of the end of the most recently completed fiscal year after 2016. **Note: If the city's fiscal year ends September 30th, the comptroller's draft rules require that the report be submitted by April 28, 2017.**

Please contact Bill Longley, TML Legislative Counsel, with questions about the reporting requirements at bill@tml.org or (512) 231-7400.

Bad Senate Bills: **Time to Visit with House Committee Members**

The Texas Senate is passing out bills at record speed. Many of them would be harmful to Texas cities. Now is the ideal time for city officials to visit with their House members who sit on the committees where those bad Senate bills will be heard (or are likely to be heard).

Here's a list of the worst of the Senate bills that have passed in the Senate, with information about each relevant House committee member who needs to hear from us right away.

State Budget Takes Next Step

After 15 hours of debate, the Texas House approved a \$218 billion budget. It now goes back to the Senate for concurrence. The House and Senate will appoint a conference committee to work out the differences. As reported at the beginning of session, budget writers are working with \$2.8 billion less than they did last biennium. Because of that, programs large and small can expect to take some hits. As passed by the House, the budget contains both good and bad for cities.

S.B. 1 now includes \$443 million in mixed beverage tax reimbursements to aid local law enforcement in curtailing drunk driving and other alcohol related offenses. This amounts to \$35 million more than was appropriated for the current biennium. The bill also includes \$12 million in local law enforcement training grants. This is a different approach than the Senate version, which does not appropriate any money for local law enforcement training but does provide \$25 million for grants to cities to purchase bullet-proof vests.

The House version also includes \$29.4 million in local parks grants, which represents a cut of approximately \$3 million over the current biennium.

Last session, the legislature appropriated \$30 million for grants to military cities and the House version of S.B. 1 continues funding at that level.

In biennia past, certain state agencies have been required to raise additional revenue over and above the amount needed to run an agency. The Senate version of the budget requires the Texas Commission on Fire Protection to raise an additional \$1.5 million over the cost of running the agency to be transferred to the state's general fund. The House version does not.

The appropriations process is ever-changing and nothing is final until the budget passes the legislature, usually during the final days of the legislative session. City officials who support the funding levels or oppose cuts found in S.B. 1 should contact members of the conference committee when they are appointed.

Small Cell Node Bill Advances: This Is What Urban Cities Can Expect

Senate Bill 1004 by Senator Kelly Hancock (R – North Richland Hills) would allow private companies to commandeer city light and traffic poles for private use. That use would consist of placing "cell nodes" on those poles with little or no city oversight. (Cell nodes are large, box-shaped antennas that cell phone companies are anxious to deploy to increase cell bandwidth.)

Cell companies want to put hundreds and hundreds of small antennas throughout our cities. The bill would largely preempt a city's ability to control where they go. Moreover, the bill would prohibit a city from getting reasonable compensation from the private companies that use them.

When the bill passed the Senate, its author held up his iPad on the Senate floor and said that the nodes are "no bigger than an iPad." Nothing could be further from the truth. This photo shows what a city's poles will look like should the bill pass as-is:

Concerned city officials should contact their House members immediately to let them know not to hand over public rights-of-way to private companies.

Further, city testimony is needed against the bill's House companion, H.B. 2838, in the House Committee on State Affairs next Wednesday, April 19, in room JHR 140 at 10:30am or upon adjournment.

City officials who cannot attend Wednesday's hearing are urged to contact members of that committee:

- Helen Giddings

- Charlie Geren
- Ryan Guillen

Rural Redlining: **This Is What Rural Cities Can Expect from the Bad Small Cell** **Node Bill**

Nothing, that's what they can expect from this new technology and the bill that supports it. Because there's no requirement in the bill, S.B. 1004, that rural communities be served by the new technology, those smaller cities will likely be left out of the new service at the same time larger cities are being preempted from any reasonable regulations (see article elsewhere in this edition). Senate Bill 1004 by Senator Kelly Hancock (R – North Richland Hills) would allow private companies to commandeer city light and traffic poles for private use. That use would consist of placing "cell nodes" on those poles. (Cell nodes are large, box-shaped antennas that cell phone companies are anxious to deploy to increase cell bandwidth.) But all of this is only likely to happen in large cities unless the bill is amended to promote deployment in smaller cities.

Cell companies want to put hundreds and hundreds of small antennas throughout our densely-populated cities, but that's not likely in the more rural communities in our state. The bill would largely preempt the large cities' ability to control where they go and cap rental fees that they can charge, while leaving small cities out in the cold altogether. It's doubly insulting.

Concerned city officials in rural cities should contact their House members immediately to let them know not to vote for any bill that doesn't expand broadband access to all Texans.

Further, city testimony is needed against the bill's House companion, H.B. 2838, in the House State Affairs Committee next Wednesday, April 19, in room JHR 140 at 10:30am or upon adjournment.

City officials who cannot attend Wednesday's hearing are urged to contact members of that committee:

Eminent Domain Reform Moving Through Process

A number of bills that would further reform the use of eminent domain have been filed this session. Both the House Committee on Land and Resource Management and the Senate State Affairs Committee have held hearings on most of the bills.

The League is currently part of a coalition of entities with eminent domain authority called the Coalition for Critical Infrastructure (CCI). CCI and its many members are working diligently with bill authors and landowner groups to provide more transparency in the process and appropriate compensation to landowners.

It seems possible that, through continuing negotiations, a workable solution can be negotiated that is better for landowners and meets the infrastructure needs of our growing state.

Federal Bill by Marchant Gives Voice to Municipal Health Pools

In Washington, D.C., much attention has been focused in recent weeks on efforts to "repeal and replace" the Affordable Care Act. Speaker Paul Ryan indicated that the health care reform effort would take place in three phases. The first phase would involve changes that could be made by Congress under an expedited process affecting budget-related provisions. The second phase would involve regulatory changes made by federal health regulators. And the third phase would include non-budgetary policy changes enacted in a separate bill. Congress has not yet finalized the first phase.

However, a proposal of great interest to municipal employees is being promoted for inclusion in the third phase of reform. U.S. Representative Kenny Marchant from Carrollton has introduced the “Local and Municipal Health Care Choice Act of 2017.” He was joined by Representative Mac Thornberry from Clarendon, as well as two other Members from Arkansas. The proposal will allow municipal health care pools like TML Multistate IEBP to sell group health plans across state lines, lowering administrative costs and bringing down premiums. The Marchant bill will provide a uniform national rule book for determining which state laws apply. It will allow the Texas pool to broaden its base of health plan beneficiaries, which will benefit Texas municipal employees who are currently enrolled in an IEBP plan.

“Municipal health pools have not been included in many of the definitions under federal health care laws, leaving a lot of uncertainty,” said Susan Smith, Executive Director of TML Multistate IEBP. “Mr. Marchant is changing all of that. The bill that he and Mr. Thornberry introduced will finally give municipal health care pools and municipal employees recognition. We are so grateful for their efforts.”

The Marchant legislation has been included in the white paper developed by Mr. Ryan and other House leaders as an important component of comprehensive legislation. Reps. Marchant, Thornberry, and other supporters of the municipal proposal will be working hard to assure that the language is included in any comprehensive health care legislation considered by Congress this year.

TCEQ Adopts Revised Total Coliform Rules

The Texas Commission on Environmental Quality has finally adopted the *Revised Total Coliform Rule (RTCR)*. The RTCR is a federal drinking water rule promulgated by the United States Environmental Protection Agency (EPA) on February 13, 2013. The RTCR increases public health protection through the reduction of potential pathways of entry for fecal contamination into the distribution system of public water systems. The TCEQ is required to adopt rules at least as stringent as the federal rules to maintain their authority over public water systems in Texas.

The adopted amendments to Chapter 290 of the Texas Administrative Code provide rule language that is no less stringent than the federal RTCR. They also provide for consistency with other federal drinking water provisions, address the EPA’s comments on the federal Ground Water Rule, and provide clarification on existing state rules.

The final rules are available on the [TCEQ website](#).

or private elementary or secondary school, an open-enrollment charter school, or an institution of higher education without first making a written finding stating a reasonable basis for the rejection; (2) the governing body of a school or institution of higher education may appeal a rejection of a request for a prima facie speed limit to the district court of the county in which the school or institution is located not later than the 90th day after the date the written finding is made; (3) if the governing body shows by clear and convincing evidence that the rejection of the request was not based on accepted traffic management principles, the district court may grant the requested prima facie speed limit; and (4) the governing body of a school or institution of higher education may consult with the Texas Department of Transportation, the Texas Transportation Commission, and local transportation authorities on the feasibility of a prima facie speed limit during the acquisition and design of property for a public or private elementary or secondary school, an open-enrollment charter school, or an institution of higher education.

Specifically, the bill would provide – among many other things – that:

1. A city may annex an area with a population of less than 200 only if the city obtains consent to annex the area through a petition signed by: (a) more than 50 percent of the registered voters of the area; and (b) if the registered voters of the area do not own more than 50 percent of the land in the area, more than 50 percent of the owners of land in the area.
2. In no case may a city annex an area with a population of less than 200 without approval of a majority of the voters voting at an election called and held for that purpose if a petition protesting the annexation is signed by a number of registered voters of the municipality equal to at least 50 percent of the number of voters who voted in the most recent municipal election and is received by the secretary of the city.
3. A city may annex an area with a population of 200 or more only if the following conditions are met, as applicable: (a) the city holds an election in the area proposed to be annexed at which the qualified voters of the area may vote on the question of the annexation, and a majority of the votes received at the election approve the annexation; and (b) if the registered voters of the area do not own more than 50 percent of the land in the area, the city obtains consent to annex the area through a petition signed by more than 50 percent of the owners of land in the area.
4. A city may annex an area if each owner of land in the area requests the annexation if: (a) the governing body of the city first negotiates and enters into a written agreement for the provision of services in the area with the owners of land in the area (the city is not required to provide a service that is not included in the agreement); and (b) the governing body of the city conducts at least two public hearings (the hearings must be conducted not less than 10 business days apart, and during the final public hearing, the governing body may adopt an ordinance annexing the area).
5. Beginning September 1, 2017, a city may not annex an area for the limited purposes of applying its planning, zoning, health, and safety ordinances in the area, regardless of any authority granted by a home rule charter.
6. The procedures for the annexation of a special district are modified, including providing that, beginning September 1, 2017, a strategic partnership agreement may not provide for limited purpose annexation.
